mail2pravallikaregalla@gmail.com | <https://www.linkedin.com/in/pravallikaregalla/>

Professional Summary:

Full Stack Engineer with over 2 years of experience in developing robust, scalable web applications using Angular, C#, .NET, and SQL Server Management Studio (SSMS). Skilled in building and maintaining single-page applications (SPAs) with seamless backend integration, ensuring high performance and scalability. competent in putting unit testing frameworks into practice to ensure the dependability and quality of code.

Education:

Master's in computer science - Sacred Heart University | GPA: 3.8/4

December 2024

Bachelor's in computer science - Rajiv Gandhi University of Knowledge Technologies | CGPA: 8.2/10 **2017 – 2021**

Technical Skills:

Programming Languages: JavaScript, TypeScript, C#.

Web Technologies: HTML5, CSS3, SASS/SCSS, Bootstrap, Angular, MVC, Node.js.

Databases: MySQL, SQL Server Management Studio (SSMS).

Tools: Visual Studio, Visual Studio Code, Git, Gitlab, Zoho, Jira.

Frameworks & Services: .NET, RESTful Services, Azure.

Skills: Full stack development, Manual Testing, Debugging, Agile Lifecycle Methodologies.

Soft Skills:

Teamwork, Strong communication skills, flexibility to learn new technologies, Analytical thinking, and Adaptability.

Professional Experience:

Company: Sails Software Solutions | Full Stack Engineer

May 2021 – July 2023

Responsibilities:

- Developed user interfaces using Angular, focusing on reactive forms, components, services, and directives, and integrated APIs for real-time data fetching and updates.
- Designed and implemented the Delivery Management module in the ePrimeRx Application, including shipping, order segmentation, driver assignment, and tracking features, while enhancing system functionality using C#, .NET, and SSMS.
- Collaborated in an Agile environment with cross-functional teams to ensure quality, security, and compliance, while converting Figma designs into Angular components for accurate UI development.
- Implemented API-driven solutions to integrate third-party services, optimizing interoperability, and improving the capabilities of pharmacy systems with real-time data processing using Elastic Search.
- Deployed and managed scalable web applications on Microsoft Azure and IIS, utilizing Jenkins for continuous integration and deployment pipelines, while providing production support and fixing bugs.
- Participated in code reviews, refactoring, and client demonstrations, gathering and analyzing requirements to deliver customised solutions with optimized database management and seamless user experiences.

Certifications:

- **Google UX Design professional certification (Google).**
Learned the importance of user-centered design by focusing on user needs through research and testing, and refining prototypes to enhance usability and functionality based on feedback.
- **Meta Front-End Developer (Meta)**
Learned to build responsive, accessible websites using HTML, CSS, JavaScript, and React, focusing on API integration to create dynamic, interactive web applications.
